“ Having the opportunity of meeting keit; even though it was very recent, so I don't have long history or many stories to tell. However, From our long conversations that tended to get kinda deep at times about life and our goals feels like we knew one another longer than a decade. I know that smile of his can draw you in so quick along with that charm. He was a funny witty intelligent man. Which intrigued me so much I was looking forward to grow our friendship in the the future. I have the puppy he named " boss" and he absolutely adored. Which in turn has allowed me to love my dog so much greater, if that was possible. I send my deepest sympathy and so much love to the house family and many constant prayers for you all during g this very trying time. God bless
